

ERASMUS + 2016- 19

EUROPEAN WEEK, VIGO  
30/04/2017 - 07/05/2017

## ALPHABET GAME ROUND 3

A	Any of the muscular elastic tubes that form a branching system and that carry blood away from the heart to the cells, tissues, and organs of the body.
B	They were an English rock band, formed in Liverpool in 1960. With members John Lennon, Paul McCartney, George Harrison and Ringo Starr, they became widely regarded as the foremost and most influential act of the rock era.
C	It is any type of malignant growth or tumor, caused by abnormal and uncontrolled cell division: it may spread through the lymphatic system or blood stream to other parts of the body
D	It is Europe's second-longest river, after the Volga River, and also the longest river in the European Union region. It is located in Central and Eastern Europe.
E	He was an American musician and actor. Regarded as one of the most significant cultural icons of the 20th century, he is often referred to as "the King of Rock and Roll", or simply, "the King".
F	To give up resentment against or stop wanting to punish (someone) for an offense or fault; pardon.
G	He is a Polish professional footballer who plays for Spanish club Sevilla FC as a defensive midfielder.
H	It is a game in which two teams of seven players try to throw a ball into their opponent's goal
I	It is a massive floating body broken away from a glacier. Only about 10 percent of its mass is above the surface of the water.
J	To propel oneself upward or over a distance in single quick motion or series of such motions.
K	It is a notched and grooved, usually metal implement that is turned to open or close a lock.
L	It is one of the world's largest museums and a historic monument in Paris, France.
M	He is a retired Argentine professional footballer. He is regarded as the greatest football player of all time. He was joint FIFA Player of the 20th Century with Pelé.
N	A is a structure built by certain animals to hold its eggs, its offspring, or occasionally the animal itself. Although they are most closely associated with birds, members of all classes of vertebrates and some invertebrates construct them.
Ñ	
O	It is a chemical element with symbol O and atomic number 8. It is a member of the chalcogen group on the periodic table and is a highly reactive nonmetal and oxidizing agent that readily forms compounds (notably oxides) with most elements.
P	They are substances that cause disturbances in organisms, usually by chemical reaction or other activity on the molecular scale, when an organism absorbs a sufficient quantity.[1][2]
Q	Quakers (or Friends) are members of a group of religious Christian movements which is known as the Religious Society of Friends in Europe, Australia, New Zealand and parts of North America; and known as the Friends Church in Africa, Asia, South America and parts of the US.
R	He invented a 3-D combination puzzle in 1974. He is an Hungarian sculptor and professor of architecture.
S	It is the star at the center of the Solar System and is by far the most important source of energy for life on Earth.
T	They are Berber people with a traditionally nomadic pastoralist lifestyle. They are the principal inhabitants of the vast Sahara Desert.
U	It is the pale yellow slightly acid fluid excreted by the kidneys, containing waste products removed from the blood. It is stored in the urinary bladder and discharged through the urethra.
V	He was a Dutch post-Impressionist painter whose work had far-reaching influence on 20th-century art. His output includes portraits, self portraits, landscapes, still lifes, olive trees and cypresses, wheat fields and sunflowers. Critics largely ignored his work until after his presumed suicide in 1890.
W	It is a type of distilled alcoholic beverage made from fermented grain mash. Various grains (which may be malted) are used for different varieties, including barley, corn (maize), rye, and wheat. It is typically aged in wooden casks, generally made of charred white oak.
X	They are a form of electromagnetic radiation, as are radio waves, infrared radiation, visible light, ultraviolet radiation and microwaves. They are used in treating cancer and in exploring the cosmos.
Y	It is a global video-sharing website headquartered in San Bruno, California, United States. The service was created by three former PayPal employees in February 2005. In November 2006, it was bought by Google for US\$1.65 billion.
Z	It is a band of the celestial sphere extending about 8° to either side of the ecliptic that represents the path of the principal planets, the moon, and the sun.
